At 21st International Salon of Urbanism (Urban Planners Exhibition), that was organised on 24. April 2013 at the National Library Gallery in Kragujevac, the new study program of Urban engineering developed at University of Kragujevac was presented to the professionals from the branch. Their reactions were positive and they expect that the new study program is going to be very popular and interesting. More pictures from the event can be found in [Gallery](#)
