

STANDING CONFERENCE OF TOWNS AND MUNICIPALITIES (SCTM) The SCTM is a national association of all local governments in Serbia, with a mission to create efficient, sustainable and democratic local government in Serbia by joint efforts with towns and municipalities, and through achieving high quality performance in serving the needs of its members. The bodies and organs of the SCTM are constituted of the mayors and presidents of municipal assemblies or their authorized representatives. One of the numerous areas in which SCTM provides advocacy and capacity building services to its members is urbanism through its Committee on Urbanism and Housing (representatives of 31 LGs) and the Department of Communal and Environmental Issues (within the Secretariat). SCTM facilitates the implementation of a number of donor projects relevant both for towns and municipalities and for the overall improvement of local government in Serbia in cooperation with national and international (Council of Europe, CLRAE, EU-CoR, CEMR, NALAS, etc.) institutions.

SERBIAN CHAMBER OF ENGINEERS (SCE) The Law on Planning and Construction (Official Gazette of the Republic of Serbia, 47/2003 and 34/2006) regulates the establishment of the Serbian Chamber of Engineers with its seat in Belgrade. The Chamber was established to improve conditions for the performance of professional work in the field of spatial and city planning, design and construction, and in other fields of relevance for planning and construction; to protect general and individual interests in these fields; to organize rendering of services in these fields, and also to achieve other objectives set by the Chamber Statute. The members of the Chamber are university graduate engineers of architecture, civil engineering, mechanical engineering, electrical, transport and other technical engineers, as well as university graduate space planners, who hold the licence issued by the Chamber.

FIAT AUTOMOTIVE SERBIA (FAS) Fiat Automotive Serbia is an Italian company which is reviving the automotive industry in Serbia. Italy's car giant Fiat will invest about 700 million EUR for this purpose. FIAT plans to introduce two new car models in Serbia. The test series needs to start in 2011. Production will start at 200.000 cars per year – close to Zastava's peak output before the 1990s wars – and could soon increase to 300.000 vehicles per year. For achieving this goal, a competent labor force is necessary.

REGIONAL CHAMBER OF COMMERCE KRAGUJEVAC (RCCK) RCCK provides professional support to its members to solve their particular problems, promote their production programs at fairs and exhibitions both in the country and abroad, establish cooperation among domestic and foreign partners through contacts with foreign chambers, various representative offices and embassies of foreign countries. The vision of RCCK is to build Central Serbia as an integrated competitive region for business operations on the Internal market of the EU. Its goals are:

- Restructuring of the existing economy into market orientated economy based on know-how
- Enhancing economic competitiveness according to European standards
- Increasing business investment activities in order to boost employment of the labor force and production capacities.

Its mission is to represent, support and promote business entities and the economic potential of the Central Serbi region in the EU market.

REGIONAL AUTOMOTIVE CLUSTER OF CENTRAL SERBIA (RACCS) The Regional Automotive Cluster of Central Serbia includes companies and institutions that produce automotive parts and components, respectively providing services in the automotive sector. Its members are the most significant companies – suppliers in the automotive industry from the territory of Central Serbia. Its aim is to provide support in strengthening the competitiveness of its members, achieving a profitable positioning within the supplier value chain of international car producers and effecting indirectly the enhancement of the economic situation within the whole automotive supplier sector.
